THE ORIGINS AND DEVELOPMENT OF THE ROYAL SOCIETY OF EDINBURGH

The Royal Society of Edinburgh (RSE) is an educational charity, registered in Scotland. Independent and non-party-political, we are working to provide public benefit throughout Scotland and by means of a growing international programme. The RSE has a peer-elected, multidisciplinary Fellowship of more than 1500 men and women who are experts within their fields.

The RSE was created in 1783 by Royal Charter for “the advancement of learning and useful knowledge”. We seek to provide public benefit in today’s Scotland by:

- Organising lectures, debates and conferences on topical issues of lasting importance, many of which are free and open to all.
- Conducting independent inquiries on matters of national and international importance.
- Providing educational activities for primary and secondary school students throughout Scotland.
- Distributing over £2 million to top researchers and entrepreneurs working in Scotland.
- Showcasing the best of Scotland’s research and development capabilities to the rest of the World.
- Facilitating two-way international exchange to enhance Scotland’s international collaboration in research and enterprise.
- Recognising educational effort and achievement by encouraging and rewarding it through the award of scholarships, prizes and medals
- Providing both reactive and proactive submissions of expert advice on a range of topical issues to the Scottish Government (including its Agencies), Scottish Parliamentary Bodies/Committees; the UK Government (including its Agencies) and UK Parliamentary Bodies/Committees.

The RSE’s premises are in the centre of Edinburgh and were extensively refurbished in 1983 to provide suitable accommodation in which to hold lectures, conferences and other meetings. In 1994 the RSE purchased the adjacent

building at 26 George Street which was refurbished during 1998 by the RSE Scotland Foundation and linked to the RSE's premises to enable further expansion of our activities.

A detailed account of the History of the Royal Society of Edinburgh was written by Professor Neil Campbell and Professor R M S Smellie (former General Secretary) for the Bicentenary Celebrations in 1983. This describes in detail its origins and background. Copies of this volume are available from the Journals Officer.

In 2006, after almost six years of research by Dr Charles Waterston, General Secretary, 1986-91, aided by Mr Angus Shearer, the Society published a biographical list of all former RSE Fellows from 1783 - 2002 (ISBN 0 902 198 84 X). This is available on the RSE website and copies have been sent to the main deposit libraries, as well as Edinburgh, Glasgow, Aberdeen and St Andrews University Libraries.

THE RSE SCOTLAND FOUNDATION

In March 1996 the Society established a connected charitable trust, the RSE Scotland Foundation. The Foundation is recognised in Scotland as Scottish charity number SC 024636 and is registered for VAT. The Foundation plays a leading role in the continued development of the Society's public outreach activities and manages the premises at 26 George Street, Edinburgh. The President, General Secretary, Treasurer, Curator and a Vice-President of the Society are *ex officio*s Trustees of the Foundation. The Foundation also has a minimum of four nominated Trustees who are appointed by the Council of the Society.

The Caledonian Research Foundation joined with the RSE Scotland Foundation in March 2009. To ensure a smooth transition, three CRF Governors served as nominated Trustees until October 2012.

Through its activities in 26 George Street, the Foundation meets its objective of preserving and conserving the architectural, scientific and cultural heritage of Scotland. In parallel, the Foundation aims to develop the Scottish public's understanding of science, engineering and technology and the part they play in increasing wealth and quality of life, and to foster greater collaboration between the academic and business communities in Scotland. The Foundation calls upon the broad intellectual resources of the Fellowship of the Society in the promotion of these objectives.

It currently oversees the governance of the RSE Young Academy of Scotland, which is an activity operating within the SCIO's auspices. It is responsible for the appointment of Academy members and for monitoring its activities, but does not seek to direct the Academy in relation to its day to day operations.

The SCIO's Trustees are appointed by the Society's Council. Each Trustee is permitted to hold office for a period of up to three years, and may thereafter hold office for a further period of up to three years, but after that period may not again be appointed as Trustee until a period of one year has elapsed.

Thereafter he or she shall sign the Roll of Fellows, thereby affirming that "As an elected Fellow of the Royal Society of Edinburgh, I undertake to do all within my power to uphold the purposes and good name of the Society".

The admission of new Fellows to the Society is not complete until this has been done, although the President may in exceptional circumstances grant an exemption or deferment to a newly-elected Fellow if satisfied there is good and proper cause for doing so.

37. Each Fellow shall, before he or she is admitted to the privileges of Fellowship, pay an admission fee and a subscription for the year of election. Except as Council may decide otherwise on an individual basis, each Fellow shall continue to pay an annual subscription at the beginning of each session so long as he or she remains a Fellow. The annual subscription and admission fee shall be such sums as may be fixed by Council for the time being.
38. A Fellow, who after application made by the Treasurer, fails to pay any contribution due by him or her, shall be reported by the Treasurer to the Council, and, if the Council sees fit, shall be declared no longer a Fellow. Notwithstanding such declaration, all arrears of contributions shall remain exigible.

Corresponding Fellows shall be persons who have attained high international standing in any subject within the disciplinary domains of the Society and who are not normally resident in the United Kingdom. Council may nominate a Corresponding Fellow who subsequently becomes normally resident in the UK to become a Fellow, subject to payment of the normal admission and subscription fees. Not more than four such persons shall be elected as Honorary Fellows in any one Session.

EXPULSION OF FELLOWS

42. Where, following an investigation carried out under the Procedures issues by the Council for dealing with serious complaints or allegations against Fellows, there has been a final decision that the conduct of a Fellow has been so injurious to the character, interests or reputation of the Society that he or she should no longer be a Fellow, the Council shall give effect to that decision by declaring him or her to be no longer a Fellow. He or she shall be so informed and sent a registered letter to his or her normal place of residence. His or her name shall be erased from the Roll, and he or she shall forfeit all right or claim in, or to, the property of the Society.
43. It shall be competent for the Council to remove any person from the Roll of Honorary Fellows or Corresponding Fellows if, in the opinion of Council, his or her remaining on the Roll would be injurious to the character or interests or reputation of the Society. Reasonable notice of such proposal shall be given to each member of the Council, and, if possible, to the Honorary Fellow or Corresponding Fellow involved. Thereafter the decision on the question shall not be taken until the matter has been discussed at two Meetings of Council, separated by an interval of not less than fourteen days. A majority of two-thirds of the members present and voting shall be required for such removal.

MEETINGS OF THE SOCIETY

44. A Statutory Meeting for the election of Council and other Office-Bearers, for the presentation of the Trustees' Annual Report and reports by the General Secretary, Treasurer and Fellowship Secretary and such other business as may be arranged by the Council, shall be held each year on the last Monday of October or exceptionally on such other Monday in October as may be determined by the Council. Each Session of the Society shall begin at the date of the Statutory Meeting.
45. Meetings for the reading and discussion of communications and for general business, herein termed Ordinary Meetings, shall be arranged by Council and held on such dates as may be deemed suitable.
46. The Business of the Society at the Ordinary Meetings shall be to order, take account of, consider and discourse on scientific, technological and literary experiments and observations.
47. A Special Meeting of the Society may be called at any time by direction of the Council, or, on a requisition to the Council, signed by not fewer than twenty Fellows. Such meeting shall be convened as soon as practicable, the date and hour thereof to be determined by the Council, who shall give not less than seven days' notice when such meeting is summoned; no other business shall be transacted. At any Special Meeting of the Society, fifty Fellows shall constitute a quorum.
48. The Council may also arrange, from time to time, such symposia, conferences or other meetings as it thinks fit, for discussion of such topics as may be arranged, or for the admission of Fellows, Corresponding Fellows and Honorary Fellows.
49. Only Fellows and relevant staff of the Society shall be permitted to be present during a meeting arranged under Laws 44 or 47, except by the approval of a two-thirds majority of the Fellows present and voting.

PUBLICATION OF PAPERS

50. The Society shall publish Transactions, Proceedings and such other publications as may be considered appropriate. The Council, whose decision is final, is advised on the acceptability, reading and publication of the papers by those Editorial Boards established by Council for such purposes. Acceptance of a paper for reading shall not necessarily imply acceptance for publication.

51. Any Fellow who is not in arrears with his or her annual subscriptions and any Corresponding or Honorary Fellow shall be entitled to purchase available copies of the Society's publications on such terms as the Council may from time to time determine.

ALTERATION OF LAWS

52. Any proposed alteration in the Laws shall be considered by the Council, due notice having been given to each member of Council. Such alteration, if approved by the Council, shall be proposed from the Chair at the next Ordinary Meeting of the Society, and in accordance with the Charter, shall be considered and voted upon at a Meeting, normally a Statutory Meeting or Special Meeting convened for the purpose, held at least one month after that at which the motion for alteration shall have been proposed.

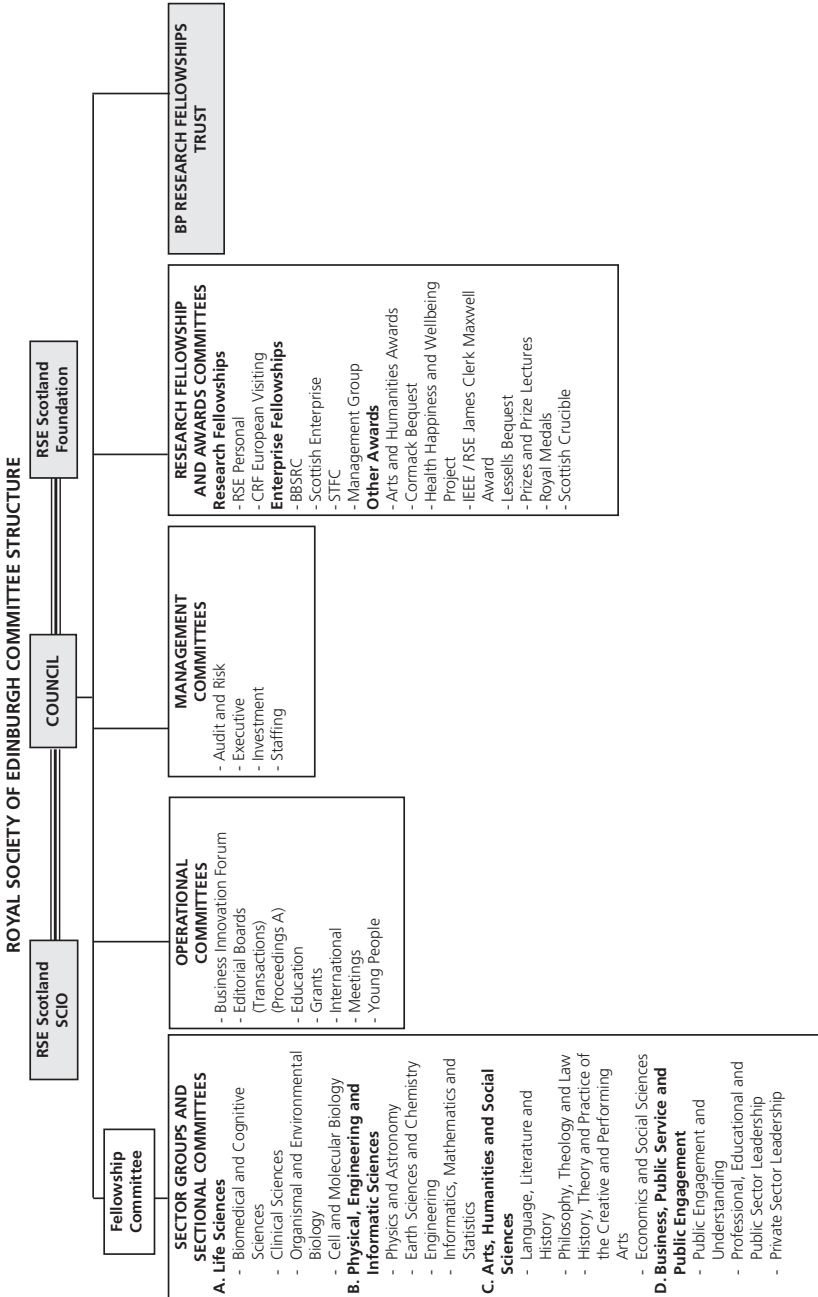

STANDING COMMITTEES OF COUNCIL

SECTIONAL COMMITTEES AND THE ELECTORAL PROCESS

The Council appoints fifteen Sectional Committees, corresponding to the disciplinary categories of the Fellowship, to take office on 1 June each year. Conveners of Sectional Committees are appointed by Council at the recommendation of the Fellowship Committee and will hold office for not more than three years, whether or not they have previously served as ordinary members of the committee. Members are recommended by the Fellowship Committee and will normally serve for a period of three years. Members of Sectional Committees who have retired by rotation are not normally eligible for reappointment until after three years.

Sectional Committees serve as an essential element in the Election Procedure for Candidates for Fellowship. They represent the first stage in a five-stage selection process also including Sector Groups, the Fellowship Committee, Council and the Fellowship. Each September/October, Sectional Committees consider and prioritise the candidates nominated in their areas. These nominations are considered competitively within each Sector Group of cognate Sectional Committees (Life Sciences; Physical, Engineering and Informatic Sciences; Arts, Humanities and Social Sciences; and Business, Public Service and Public Engagement) using the allocation of provisional Fellowship places as decided by Council in September. Each Sector Group is chaired by a relevant Vice-President. The Fellowship Committee considers the Groups' lists of recommended candidates, and these are then resolved and recommended to Council for approval before the list goes to the Fellowship for a ballot. The result of the election is announced the following March.

Sectional Committees may also be asked to provide specialist advice to Council, as appropriate, on such matters as the programme of events, nominations for prizes, and the Society's policy advice work. So far as possible, Council will inform Sectional Committees in September of business, additional to the Fellowship election procedure, which it will require of each Committee in that year.
